Subject: FYI - Premier Statement on federal Emergencies Act

Statement PO wrote this statement to send to media – they are getting media calls.

Norma – is piece in yellow correct? My understanding is that it is enacted in all PTs, but won't be enforced here at this time.

Thanks

Elizabeth

Please see below for a statement from Premier Houston regarding the federal government enacting the Emergencies Act:

Two and half weeks ago, when we were notified that there was a group of people who were organizing protests aligned with the “freedom convoy” in Nova Scotia, our government provided additional tools to law enforcement. We issued two related directives, one on January 28th, and one on February 4th. Both directives increased the associated fines from \$3,000 to \$10,000 for individuals and between \$20,000 and \$100,000 for a corporation. Given the nature of the protests to date in Nova Scotia - which have generally been peaceful and within the law - along with our two provincial Government directives, which established significant fines to reinforce the message that Nova Scotia will not tolerate blockades, we did not need the federal government to enact the Emergencies Act in Nova Scotia at this time.
